Temperature history

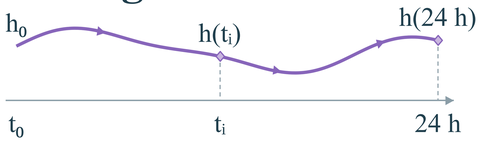
Observed temperature

STPM: Shape-aware Temperature Prediction Module

History encoding

Temperature + time context

ODE and shape generation



Anchoring and residual

Anchored base + residual

Temperature forecast

24-hour forecast (°C)

Temperature transfer

Scale temperature for PRFM

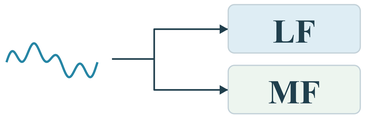
Response history

Observed response

PRFM: Physics-inspired Response Fusion Module

Frequency and history

Band split + state initialization



Response evolution

LF mapping + MF state ODEs

Component fusion

Combine response components

LF + Reversible + Memory

Response forecast

24 hours & original units
